Summary

Frontend-focused Computer Science undergraduate with hands-on experience shipping a full-stack web application end-to-end – from UI to database design to deployment. Comfortable across React.js, Tailwind CSS, and Supabase/PostgreSQL, with 200+ DSA problems solved. Looking for a Frontend Developer internship/role where I can build polished, user-facing products.

Technical Skills

Frontend	JavaScript, HTML5, CSS3, React.js, Next.js, Tailwind CSS, Responsive Design
Backend	REST APIs, Supabase (PostgreSQL), Row-Level Security (RLS)
Tools	Git, GitHub, Vercel, Postman, VS Code
Core CS	Data Structures & Algorithms, OOP, DBMS

Projects

HealthMate – AI Health Companion

[Live Demo](#) | [GitHub](#)

- Designed and built a full-stack health-tracking web app end-to-end, from UI/UX to database schema to deployment, as a solo project to learn production-style development
- Developed 8+ core features in React.js and Tailwind CSS, including activity tracking, a personal dashboard, and account management, with a mobile-first responsive layout usable on any device
- Designed a 9-table relational schema in Supabase (PostgreSQL) to model users, health records, and activity logs, keeping the data structure normalized and query-friendly
- Implemented authentication and Row-Level Security (RLS) policies so every user can only read and write their own data, preventing cross-account data leaks
- Integrated REST APIs to keep tracking views updated in real time as users log new data
- Handled the full deployment pipeline on Vercel, including environment configuration and continuous deployment from GitHub

Education

RD Engineering College

B.Tech, Computer Science and Engineering

2023 – Present

CGPA: 8 / 10

Achievements & Certifications

- Solved 200+ Data Structures & Algorithms problems, with particular strength in Trees, Dynamic Programming, and Recursion
- Participated in a college hackathon, collaborating with a team under time constraints to build and present a working prototype
- Core member of the coding club at RD Engineering College, taking part in peer coding sessions and club-organized events
- NPTEL certification in Java
- Oracle certification in Generative AI
